Report for November

For **Esempio Beach Club**
Sent on **1 Dec 2026**

COMPLETED EXAMPLE. Client and numbers are invented. It shows what a real report looks like at the end of the first month.

01 The hours

Hours used in November (settling-in month, no cap on hours)

6.5 hours

From next month, with the Base level, the included hours would be 2: how to set the budget is decided later. Updates, security and backups do not use up hours.

02 What was done

04/11	Updated the winter menu and the wine list, in Italian and English
09/11	Corrected the opening hours in the Google listing and added four photos
14/11	Replaced the table QR code with a larger one, readable even in low light
22/11	Added the special holiday menu, with a printable version

03 Done automatically, without using hours

- ✓ Technical updates of the website carried out
- ✓ Backups completed and verified every week
- ✓ Security and functioning checks: no problems

05 What is recommended for next month

- Add table booking from the menu: about 6 hours, quoted separately. At the moment 11 people out of 19 book by writing.

FIRST-MONTH REPORT ONLY

What we learned

In the first month the hours were not counted. Now we look together at how much was really needed, to set a fair budget for the rest of the year.

THE SETTLING-IN MONTH IN NUMBERS

6.5 hours
REAL HOURS USED

9
REQUESTS HANDLED

3 hours
HOURS A MONTH EXPECTED FROM NOW ON

The settling-in flat fee was 250 euro. The hours used, at 50 euro an hour, would be 325 euro: the flat fee cost less, and now it is clear what is really needed. In season requests grow, so it is worth keeping a little margin.

01 The recommended level

LEVEL	WHAT IT INCLUDES	PER MONTH
Base (recommended)	3 hours included, updates, security, backups, report, a first reply within one working day	€140

Extra hours at 50 euro an hour, in blocks of 30 minutes, always communicated beforehand. 30 days' notice to change or stop. VAT if due.

02 What is decided now

- Level chosen: Base
- Included hours: 3 a month, from 1 Dec 2026
- Next job: table booking from the menu, quoted separately
