01 What we understood

The beach club is well kept, with a kitchen and a wine cellar of a high standard. The digital menu leads to a page that is never updated, and when a change is needed nobody replies. The goal is an online presence in line with the quality of the venue, and a point of contact during the season. Number to measure: the table requests that come from the menu.

02 What will be built

- A refined digital menu, in the style of the venue: updated independently in a minute, with a QR code and a printable version, in Italian and English.
- A presentation page, clear and fast, readable on a phone, with opening hours, contacts and directions.
- English texts written by a native speaker for the menu, the wine list and the page.
- Google listing complete and aligned with what is online: hours, photos, description.

Not included: professional photography, printing of the QR code, paid advertising, new features (for example table booking) beyond those listed.

03 What it costs

ITEM	AMOUNT
Refined digital menu, two languages	€600
Presentation page	€800
English texts	€250
Google listing and aligned information	€300
Check-up credit (200 euro already paid, confirmed within 3 days)	- €200

Total (VAT if due)

€1,750

Fixed price: it does not change along the way. If something extra is needed during the work, it is flagged straight away and written down before going ahead. Domain and hosting (about 50-120 euro a year) are separate, registered in the client's name and paid with the client's own payment method.

04 When

Delivery within 15 days of the moment all the material arrives (texts, photos, access): the menu and texts first, then the page and the Google listing. Start on 12 Oct 2026, expected delivery on 27 Oct 2026. Two rounds of revisions are included. Every job gets full attention, to keep to the schedule; a delay in providing the material moves the date by the same amount.

05 What is needed to start

- The current menu and the wine list as text or readable photos, and ideas about what changes with the season
- The best photos of the venue and the logo, even if they are not perfect: they are fixed up
- Access to the domain, the Google listing and the current digital menu
- A contact person who replies within 2-3 working days

06 After delivery

Ongoing care, optional. The first month is a settling-in month at a flat fee of 250 euro, with no cap on hours, for support, research and ideas (new developments excluded). At the end of the month a report with the real hours sets the level together: a Base fee of 120 euro a month with 2 hours included; beyond that, 50 euro an hour, in blocks of 30 minutes, always communicated beforehand. The settling-in month carries no commitment. See Service agreement, article 4.

07 How to pay

- Deposit of 40% on signing: €700
- Balance of 60% on delivery: €1,050
- Bank transfer to IT00 X000 0000 0000 0000 0000 000, in the name of Matia Zoffoli, within 10 days of the invoice.

08 What stays with the client

Domain, content, data and access always stay with the client, with a perpetual licence to use the delivered work. At the end of the relationship everything is handed over within 10 days.

09 Acceptance

To accept, reply "I accept" to this email, or sign below. The attached Service agreement applies to this job and to future ones.
